

AUGERS

EARTH (A-6):

Bladed Teeth for Earth, Clay and Shale

All Purpose for General Drilling:

The angle and geometry of the teeth to the pilot is the key to the efficiency in which these Augers perform. Available in earth or multi-facet tungsten (MFT) braised onto the face of the teeth, providing longer wear life and greater cutting performance. Not suitable to harder fracturable rock.

ROCK/COMBO (RC-6):

Taper Teeth for all Grounded Conditions

All Ultimate all Performance Auger:

No Need to have two augers for different conditions. Ideal in all drilling conditions. Cut a clean clear hole in soft earth and clay and have ultimate ripping ability in fracturable rock.

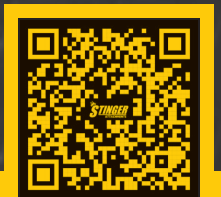

DEDICATED ROCK (DR-6):

Rotating Rock Picks for Shale and Fracturable Rock

Heavy Duty & Efficient Cutting Head for the Ultimate Rock Drilling Auger.

Heavy duty engineered design with high efficiency cutting heads to maximize your drilling performance. Filled with a range of quality wear parts providing superior wear and performance.
