- 1/2" Flat-faced Couplers
- Safety Step
- 2 Years Warranty

## SIZES

- 3/4 Yd
- 1 Yd

The Stinger Attachments Concrete Bucket is the perfect piece for contractors. If you use a wheelbarrow to carry, mix and pour concrete, installing a concrete bucket on your skid steer can make your job easier and more efficient. This attachment eliminates the fatigue caused by manual wheelbarrow pouring by allowing your skid steer loader to do the heavy lifting. The dynamic design provides smooth and accurate concrete pouring directly from your skid steer loader.

**MULTIPLE CARRIER MOUNTS AVAILABLE.  
PROPER BALLAST REQUIRED.**
