The Stinger Attachments Clam Grapple is designed for utility tractors and skid steers 50-100 hp. It is a stepped-up version of our widely popular Compact Clam Grapple (CCG). It features a strong design that allows for maximum performance and convenience. It is built out of AR200 material to make it extremely durable and strong. The large 46" grapple opening, and self-clamping independent grapple design enables the operator to effectively grab large amounts of debris for fast and efficient results. It also features our proven bolt-on mount design, allowing for flexibility with multiple carriers. We currently offer Universal Quick-Attach and John Deere 100-400 series mount styles. All materials are made in the USA and fabricated at our manufacturing facility. The Stinger Attachments Clam Grapple is a must have to add to your accessory package for your machine.
