The Stinger Attachments Compact Snow Pusher is the perfect attachment for moving large amounts of snow quickly and easily. The rear rolled moldboard design effectively rolls the snow, enabling the operator to make longer passes to move more snow quickly. This pusher is intended for compact tractors and smaller skid steers 20-45 hp. The Stinger Attachments Compact Snow Pusher is a heavy-duty design that is built with the strength to last and perform, yet in a lightweight package that allows for maximum lift performance and convenience in the compact tractor category. This pusher also features our proven bolt-on carrier design. This design offers flexibility to be compatible with multiple brands of machines. We currently offer Universal Quick-Attach and John Deere 100-400 Series mount styles. All frame materials are made in the USA and fabricated at our manufacturing facility. The Stinger Attachments Compact Snow Pusher is a must have to complete your accessory package for your machine, making jobs easier and tasks enjoyable.
