**MULTIPLE CARRIER MOUNTS AVAILABLE.
PROPER BALLAST REQUIRED.**

The Stinger Attachments Snow Pusher Extreme offers a fast and efficient method to move large amounts of snow quickly and easily by eliminating dump time. The pusher comes with steel or rubber cut edges and easily adjustable wear skids. It also features interior enclosed corner supports for added strength and ease to cleanout. The optional drag back works well to pull snow back from to hard-to-reach areas next to buildings and curves. This drag back features a tall edge to pull back large amounts of snow in one pass.
